December 2016

Dear TOPS friends in Arizona, California, Hawaii and Nevada,

Knowing how much Franki loves TOPS, resigning as your Regional Director must have been a very difficult decision for her to make. She and I have worked closely together for many years and on several special events and I am happy that she will continue as a Coordinator in California.

TOPS has offered me the position of Regional Director and I have accepted the opportunity to serve the chapters and members in Arizona, California, Hawaii and Nevada in this new role beginning January 1, 2017. I appreciate Franki for recommending me and the confidence TOPS has placed in me.

TOPS continues to be a lifesaver to those who seek to achieve and maintain a healthy weight and active lifestyle. It is exciting to work with all of you to enlarge our TOPS family as we work together to offer support, encouragement, and motivation in a loving and caring environment to reach our healthiest weights.

I am privileged to be part of this organization and work with you to make every chapter TOPS. Please feel free to contact me and share your thoughts, feelings, concerns and dreams about TOPS at any time.

Sincerely,

Margie Fisher
